Description

Design description

KOP D is an expressive ceiling plafond that fits into the modern, graphic approach to form and light. Despite its considerable size, the lamp retains its lightness thanks to its spherical glass shades and geometric arm arrangement. It's a fixture that not only illuminates, but also organizes the space - both visually and functionally. Its form is reminiscent of a contemporary interpretation of a planetary system: the glass spheres seem to revolve around an axis, creating a composition full of rhythm and balance.

Lamp components and functionality

The KOP D plafond consists of four glass shades with a diameter of 20 cm, made of milk-white glass, which diffuses light evenly and directly. The lampshades are arranged symmetrically on the horizontal axis of the structure, attached to the ceiling by two slender brackets and a base painted in black (Jet Black RAL 9005) or white (RAL 9003).

The lamp has four E27 fixtures (max 4x15W LED), so you can freely choose the color and intensity of the light - from warm and moody to brighter, more

functional. The entire fixture is made of lacquered metal and glass.

The dimensions of the luminaire: 120 cm long, 42 cm wide and 42,3 cm high. Thanks to these proportions, KOP D is perfect for larger rooms, such as a living room, dining room or office space.

Application and IP20 / IP44 protection class

The KOP D lamp is available in two waterproofing options - IP20 (for dry rooms) and IP44 (for interiors with higher humidity, such as bathrooms, outside direct water exposure zones).

It's an ideal choice for those who want to build a coherent light fixture in the interior - the plafond blends perfectly with other lamps from the KOP collection: wall lamps KOP A, KOP B, KOP C and KOP F, and the KOP E pendant lamp. Together they form a balanced, modern whole - whether you want atmospheric lighting for your relaxation area or precise light over the table.

Handmade and unique character

Each lamp is assembled by hand to order, with the utmost attention to detail - this is a product created with the individual viewer in mind, not mass production. Its finish is a testament to its quality and approach to design, where every element matters.

It is distinguished by:

- A harmonious composition of four large glass spheres.
- A sprawling form that works well in spacious interiors.
- Handcrafted and precise finish in black (Jet Black RAL 9005) or white (RAL 9003).
- Choice of IP20 or IP44 variants.
- Part of the cohesive KOP collection - ideal for juxtaposition with other models.

Technical information

Light source included	None
Screw type	E27 LED
Max wattage	4 x 15W
IP degree	IP20
Length	120cm
Width	42cm
Height	42.3cm
Length of the ceiling slat	40cm x 6cm
Made of	metal / glass
Colour	black (Jet Black RAL 9005)
Lampshade color	white
Warranty	24 months
Comments	custom-made product
Type / function	ceiling lamp, plafond
Power supply	~230V, 50/60 Hz

Other finishes
