Description

Design description

KUUL F is the smallest of the pendant lamps in the KUUL collection - compact, but full of character. Its form draws on the same principles that distinguish the series: a minimalist sphere of milky white glass, simple suspension and careful detailing. Despite its small size, the lamp retains its sculptural presence and visual softness.

It's a fixture that works well as a spot light source, such as by the bed, over a side table or in a rhythmic row over a kitchen island. Available in black (RAL 9005), white (RAL 9003) and burgundy (RAL 3004), it gives you the opportunity to match a variety of interiors and styles - from Japanese, Scandinavian minimalism to more striking arrangements.

Lamp components and functionality

The KUUL F lamp consists of a single glass shade with a diameter of 15 cm, made of milky white glass, which gently diffuses light and creates a cozy

atmosphere. It is suspended from a single 112.5 cm long polyester braided cable, which can be adjusted during installation. The whole is complemented by a minimalist powder-coated ceiling mount.

Inside the shade there is a holder for a G9 bulb (LED max 12W), which ensures energy efficiency and the ability to adjust the light color to the needs of the room.

Thanks to its compact form, KUUL F is ideal for places where subtle, spot lighting is needed - both in apartments and commercial spaces.

Application and IP20 / IP44 rating

The KUUL F lamp is available in two waterproofing options: IP20 and IP44. The former will work well in classic dry living spaces (living room, bedroom, corridor), while the IP44 version allows safe use also in rooms with higher humidity - such as bathrooms and kitchens.

Thanks to its small size and classic form, the sphere lamp easily blends with other luminaires from the KUUL collection, allowing you to create cohesive lighting arrangements throughout the interior.

Handcrafted and unique character

Each KUUL F lamp is assembled by hand - with attention to detail, finish and consistency of form. This is a product for those who appreciate conscious design, durability and subtle aesthetics. The milky glass shade, delicate metal structure and carefully selected components combine to create a functional object that brings light and balance to an interior.

Key features

- Minimalist pendant lamp with a shade of 15 cm in diameter.
- Milky white glass for soft, even light diffusion.
- Three color options: black (RAL 9005), white (RAL 9003), burgundy (RAL 3004).
- Two versions of waterproofing: IP20 for dry areas or IP44 for areas exposed to moisture.
- G9 LED light source (up to 12W) - color and light intensity can be adjusted.
- Braided cable with a length of 112.5 cm - elegant appearance and durability.
- Lightweight form ideal for single installation or in a group.
- Carefully made, assembled by hand - a guarantee of quality and unique character.
