Description

Design description

Are we going to make a snowman today? No need - let's create KUUL B instead. This triple plafond is the essence of form, which attracts attention like a sculpture made of light. Three milky white spheres with a diameter of 15 cm resemble snow spheres suspended from the ceiling - elegant, pure, timeless.

KUUL B, like the entire KUUL collection, combines precision craftsmanship with softness of light. It's a fixture created for those looking for visual consistency and exceptional character in everyday lighting. By choosing KUUL B in black, white or burgundy, you decide to make a bold accent or a subtle complement to your interior - depending on your design needs.

Lamp components and functionality

KUUL B is a ceiling plafond, which consists of three spherical lampshades made of milky white glass. Each sphere has a diameter of 15 cm and provides

a gently diffused light that is pleasant to the eye. The light sources are interchangeable G9 bulbs (up to 3x12W LED), which gives the user the freedom to choose the color and intensity. The whole is set on a powder-coated metal mount.

The lamp is 48.2 cm in length, 15 cm in width and 17.5 cm in height - proportions that make KUUL B suitable for both low ceilings and spaces where compact but striking design is important.

Application and IP20 / IP44 rating

KUUL B is available in two waterproofing options - IP20 and IP44. This makes it perfect not only in the living room, bedroom or hallway, but also in rooms with increased humidity, such as the bathroom (outside the zone of direct contact with water). This is an ideal solution for interiors where lighting is to serve both a utilitarian and decorative function.

Handmade and unique character

Each plafond in the KUUL series is assembled by hand with attention to detail and quality of finish. This is not a serial product - it is an author's design that brings calm, balance and visual lightness to the interior. Despite its sculptural form, KUUL B remains functional and easy for everyday use.

KUUL B - key features

- Three spherical glass lampshades with a diameter of 15 cm - soft, diffused light.
- Color versions: white RAL 9003, burgundy RAL 3004, black RAL 9005.
- Ceiling plafond - compact form and elegant appearance.
- Light source: 3x G9 LED (max 12W each) - replaceable and customizable.
- Protection class IP20 or IP44 - for dry and damp interiors.
- Handmade - unique character, refined details.
