Description

Design Description

Luoti 3L is a triple version of the iconic Luoti lamp, set on an elegant lacquered ceiling bar. Three distinctive glass spheres in a milky finish are suspended at equal intervals from textile braided wires. The minimalist form and rhythmic composition make the lamp look light and modern, while providing a strong accent in the interior.

The juxtaposition of rounded shades and rectilinear strip creates a harmonious whole - modern, but not cold. It's a design that combines geometric discipline with visual softness. Available in black or white, Luoti 3L fits into a variety of design styles - from minimalist to japanese to loft.

Lamp components and functionality

The Luoti 3L model is equipped with three G9-type light sources, allowing for even, functional illumination of a larger space. The milky white shades diffuse the light in a soft and pleasing way, without causing glare. The wires are more than a meter long, so the lamp can be hung low over a table,

kitchen island or worktop.

The overall height of 130 cm makes it easy to fit into interiors of different heights. The solid ceiling bar provides a stable base for the three overhangs, at the same time organizing the composition and facilitating installation.

Application and IP20 waterproof class

Luoti 3L was designed for residential and commercial interiors. It will work well in a dining room, kitchen, living room, over a conference table or in service spaces. With an IP20 rating, it is designed for indoor use in dry areas. Its versatile form and careful finishing make it a timeless addition to any interior design project.

Handcrafted and unique character

Each Luoti 3L lamp is manufactured with attention to detail. This ensures that each piece has its own individual character, while maintaining high quality and aesthetic workmanship. Luoti 3L is a product designed and manufactured in Poland - combining local craftsmanship with modern design.

LUOTI 3L - key features

- Triple pendant lamp from the Luoti collection - three sources of light on one strip.
- Geometric, minimalist form with a striking rhythm of spheres.
- Milky white glass shades Ø15 cm give soft, pleasant light.
- Wires in textile braid - aesthetic and durable (length 103,2 cm).
- Two colors to choose from - white RAL 9003, black RAL 9005.
- G9 socket - possibility to use energy-saving LED bulbs (max 3×12W).
- Protection class IP20 - for indoor use.
- Handmade with attention to detail - Polish product.
