Description

Design description

The pendant lamp from the Ligne collection is a nod to simple, geometric forms. Two milky white spheres resting on a horizontal steel beam create a minimalist and harmonious composition. It is from the French word "ligne" (line) that the lamp took its name - reflecting both the idea of movement and balance. The design is dominated by clean lines, classic colors and a subtle play of proportions. The whole creates a modern form that easily fits into various interior styles - from scandi and modern, to loft and eclecticism.

Lamp components and functionality

The lamp consists of a horizontal frame made of powder-coated metal, on which are placed two spherical glass lampshades with a diameter of 20 cm. A LED strip (25W, 3000K) is integrated in the lower part of the frame to provide an additional source of light. The LED lighting can be customized to a neutral color of 4000K. The lamp also has two sockets for E27 bulbs (max 2x15W LED). The whole is suspended from two steel cables and textile braided wires.

Application and IP20 protection class

Ligne was designed for indoor use - it will be perfect over the dining room table, in the kitchen, living room or office space. The IP20 rating allows safe use in dry areas. Thanks to the diffused light of the shades and linear LED, the lamp provides pleasant, even illumination in both smaller and larger spaces.

Handcrafted and unique character

Each Ligne lamp is manufactured with attention to detail in a local manufactory. Handmade components, precise assembly and individual quality control guarantee the unique character of each piece. It is not only a functional source of light, but also an element of modern Polish design that stands out for its quality and aesthetics.

LIGNE - key features

- Pendant lamp with a length of more than 1 meter - a striking and minimalist form.
- Two spherical shades of milky glass (ø20 cm) + integrated LED strip 25W.
- Color black (RAL 9005) or white (RAL 9003).
- Choice of LED color: 3000K (standard) or 4000K (on request).
- Additional light sources: 2x E27 socket (up to 15W LED).
- Protection class IP20 - for dry spaces.
- Handmade - unique character and precision.

Parameters of the LED strip:

- type of LEDs 2835 SMD

- flux 120lm
- power 25W/m
- voltage 24V
- IP20

Parameters of LED strip power supply:

- ultra slim type

- input voltage 110/220V
- output voltage 24V
- power 36W
- output current 1.5A
- IP20

Technical information

Light source included	Yes
Screw type	E27 LED, LED stripe
Max wattage	2 x 15W E27 LED, LED stripe 25W/m
IP degree	IP20
Cable/-s lenght	180cm
Cable lenght	150cm
Length	102.6cm
Width	20cm
Height	26cm
Length of the ceiling slot	40cm x 2,5cm
Made of	metal / glass
Colour	white (Signal White RAL 9003)
Cable color	white
Braid type	polyester
Lampshade color	white

Warranty	24 months
Comments	custom-made product
Type / function	ceiling lamp, pedant lamp
Overall length	167.8cm
Power supply	~230V, 50/60 Hz

Other finishes
