Description

A pearl fished out of the Baltic Sea? No! This is SALLO - a collection of minimalist hanging, wall, floor and table lamps, which was created as a result of cooperation between the SALAK studio and the UMMO brand. The shape of the lampshades resemble shells with pearls or heads in flattened hats. The original shape makes the lighting from this collection an ideal choice for those looking for a modern and stylish design. This phenomenal series of luminaires combines modernist character and contemporary design. The models are available in two color variants: black and white. Hanging lamps have been equipped with one, two or three LED light sources, and the others with single ones. The collection was in the finals of the Good Design 2022 competition. Discover SALLO - a real lighting treasure designed at the shore of the Polish sea.
