Description

Design description

The KUUL ST lamp is for lovers of simplicity who appreciate elegance and subtle details. Geometric simplicity meets soft light here - KUUL ST is the essence of minimalist elegance in the form of a compact table lamp.

The lampshade comes to the fore - a classic 20 cm diameter glass sphere in a milky finish, resting on a low metal base. Thanks to its neat proportions, the lamp gains visual lightness, while remaining stable and practical.

KUUL ST is perfectly suited to modern, Japanese, Scandinavian or classic interiors - wherever a moody atmosphere and stylistic consistency are important. Depending on the color version chosen - white, black or burgundy - it can act as a sophisticated accent or a delicate complement to the arrangement.

Lamp components and functionality

The KUUL ST lamp consists of a spherical lampshade with a diameter of 20 cm made of milk-white glass, which guarantees soft, evenly diffused light, ideal for evening relaxation, reading or working at the desk.

Under the shade is a low, powder-coated metal base. The lamp is equipped with a 150 cm long textile braided cord, as well as a switch and plug.

The light source is an E27 socket, compatible with LED bulbs of up to 15W of A60 shape - so the user can choose the color and intensity of light according to his preferences.

Application and IP20 protection class

KUUL ST is a table lamp with IP20 protection class - ideal for dry rooms. It will be perfect in the living room, bedroom, on a desk or bedside table, as well as an elegant accent in commercial spaces - for example, in hotel rooms or reception areas.

Thanks to its compact size and pleasing form, it can be used solo or in a pair - for example, on either side of a bed, on a console or dresser.

The KUUL collection is more than a single form - it is a whole family of luminaires that are united by a characteristic spherical glass shade with a milky finish. In the series you'll find both pendant lamps (KUUL E, F, G), wall lamps (KUUL D, D1), as well as ceiling (KUUL C) or multi-point (KUUL A) variants - each maintaining the same minimalist style, offering a variety of design possibilities. Thanks to their consistent aesthetics, KUUL fixtures can be easily combined within a single space to create a harmonious and functional lighting composition.

Handcrafted and unique character

Each lamp in the KUUL collection is created through a hand-assembly process, which guarantees exceptional workmanship and individual character. The artisanal approach to production makes each piece of KUUL ST unique and devoid of the anonymity of mass production.

It is more than a source of light - it is a design element that builds atmosphere and emphasizes the aesthetics of the interior.

KUUL ST - key features

- Designer table lamp with a spherical shade with a diameter of 20 cm.
- Milky white glass for soft, diffused light.
- Stable base lacquered in structure.
- Three colors to choose from: white (RAL 9003), black (RAL 9005), burgundy (RAL 3004).
- 150 cm braided cable + color-matched plug and switch.
- Replaceable light source: E27, up to 15W LED.
- Protection class IP20 - for indoor use.
- Handmade - precision and individual character of each piece.
