Manufacturer: **UMMO Lighting**

Product code: **KLA341P0**

EAN: **5906733720114**

## Description

### Design description

Are we going to make a snowman today? What's not! From snowballs we will make a lamp - and not just any lamp. KUUL A is a tribute to geometry and purity of form, where three perfectly smooth, milky white spheres form a suspended composition, resembling a mobile of white planets suspended in the air. This pendant lamp impresses with its lightness and rhythm, combining childlike playfulness with adult precision craftsmanship.

Designed with coherence and harmony in mind, KUUL A fits perfectly in modern settings, as well as in Japanese, loft or classic interiors. Its minimalist yet striking appearance is the result of conscious design - with respect for proportions, light and materials. The black lacquered base and braided wires contrast with the delicacy of the milky glass, creating an impression of elegant balance.

### Lamp components and functionality

KUUL A is a ceiling lamp that combines three glass shades, each 15 cm in diameter - made of milky white glass, providing soft and diffused light. The

spherical forms are suspended from three polyester braided textile cables, which are 112.5 cm long - enough to create a striking multi-level light composition.

The luminaire has a powder-coated metal bezel with a subtle structure, which stabilizes the entire structure and adds to its expressiveness. The lamp's total length is 130 cm and its width is 48.2 cm, making KUUL A perfect as a central source of light over a table, kitchen island or in a living room.

Each of the shades conceals an interchangeable light source with a popular G9 thread (max 3x12W LED), which gives you the freedom to choose the power and color temperature - depending on your design needs.

## Application and protection class IP20 / IP44

KUUL A was designed for domestic and commercial spaces where style and light matter. In the IP20 version, it will work well in living rooms, dining rooms or bedrooms - places where there is no increased humidity. The IP44 variant also allows installation in spaces exposed to moisture, such as kitchens or bathrooms (outside the zone of direct contact with water).

KUUL A is part of the larger KUUL collection - a cohesive family of lamps, which also includes the KUUL B plafond, KUUL D, D1 wall lamps and KUUL F, G and E pendant lamps. By putting these fixtures together, you can create a harmonious, unified lighting system - full of warmth, rhythm and subtle geometry.

## Handcrafted and unique

Each lamp in the KUUL series is assembled by hand - with attention to detail and perfect finish. This is not a mass product, but an expression of authentic craftsmanship and design with soul. By choosing KUUL A, you are opting for quality, originality and an item that will build the mood of your space for years to come.

### KUUL A - key features:

- Three milky-white glass shades Ø15 cm - the effect of soft, diffused light.
- Modern form inspired by a snowball - geometric lightness.
- Wires in polyester braid - aesthetic and durable.
- G9 thread - compatibility with a wide range of light sources (max 3x12W LED).
- Available in IP20 and IP44 waterproof classes.
- Handmade - individual character and craftsmanship quality.
- Dimensions: 48,2 x 15 x 130 cm (length x width x overall height).
- Three colors to choose from - white RAL 9003, black RAL 9005 and burgundy RAL 3004.

## Technical information

Light source included	None
Screw type	G9 LED
Max wattage	3 x 12W
Cable/-s lenght	110cm
Length	130cm
Length of the ceiling slat	40cm x 6cm
Made of	metal / glass
Colour	burgundy (Purple Red RAL 3004)
Cable color	white
Braid type	polyester
Diameter of the lampshade	15cm
Dimmable	yes
Warranty	24 months
Comments	custom-made product
Type / function	ceiling lamp, pedant lamp
