Description

Design description

The KUUL D1 wall lamp is a functional and elegant version of the classic wall lamp from the KUUL series - enriched with a discreet switch, which adds to its practicality. Its form is based on a contrasting juxtaposition of a spherical, milky-white lampshade with a structurally finished metal mount. With a diameter of 15 cm, the lampshade is reminiscent of a snow globe - hence the inspiration for the entire collection.

Three color versions - classic white (RAL 9003), deep black (RAL 9005) and elegant burgundy (RAL 3004) - make KUUL D1 a perfect match for both minimalist and more expressive arrangements.

Lamp components and functionality

KUUL D1 is a compact wall lamp measuring 17.5 × 15 × 26.5 cm. The most important visual and functional component is the spherical glass shade (Ø15 cm), which diffuses light evenly and softly, without glare.

An on/off switch on the housing allows you to control the lamp independently, making it an ideal choice, for example, as lighting by the bed, in the hallway or in relaxation areas. Inside there is an interchangeable G9 light source (LED max 12W), which gives you the freedom to personalize the color and intensity of the light.

The lamp's construction is based on a solid metal mount, powder-coated in black, white or burgundy - all with a distinctive matte structured finish.

Application and IP20 protection class

KUUL D1 comes exclusively in an IP20-rated version, which means it has been designed for indoor use in dry spaces. It will work well in a bedroom, hallway, living room, as well as in commercial spaces such as hotels and offices.

Thanks to the presence of an on/off switch and its compact form, it can function as a standalone light source or as part of a larger lighting system based on the KUUL collection.

Handcrafted and unique character

Each KUUL D1 lamp is hand-assembled with attention to every detail. This is not a mass product - it is an expression of an artisanal approach to lighting design and production. When you choose KUUL D1, you are choosing quality, aesthetics and durability.

KUUL D1 - key features

- Wall lamp with built-in switch - convenient, independent control.
- Shade of milky white glass Ø15 cm - soft, diffused light.
- Compact form - 17,5 × 15 × 26,5 cm.
- Colors: black (RAL 9005), white (RAL 9003), burgundy (RAL 3004).
- G9 thread - interchangeable light source up to 12W LED.
- Protection class IP20 - for use in dry areas.
- Hand assembling - care, quality, character.

Technical information

Light source included	None
