4000K	YOA611P04	5906733723047	1 999,00 zł

Description

Design Description

YOTTSU A is a contemporary interpretation of the minimalist Italian design of the 1990s, where the minimalism of the form gives a unique subtlety, and every detail plays a structural and aesthetic role at the same time. The geometric, horizontal body of the lamp draws attention to the characteristic clearance - a subtle opening in the body of the lampshade, which adds to its optical lightness and dynamism. Thanks to this treatment, the luminaire gains a sculptural character, and the light not only illuminates the space, but also defines it visually. The colors of the luminaire are a broad palette of the UMMO brand: white RAL 9003, black RAL 9005, melon RAL 1028, blue RAL 5014.

Lamp components and functionality

The lamp is made of powder-coated metal, making it not only durable, but also aesthetically refined. Its internal light source is an integrated 14.4W LED panel (CRI 90), available in two color temperatures - 3000K or 4000K - which allows you to customize the interior atmosphere. The slim form with dimensions: 100 x 25 x 8 cm is suspended from thin steel cables, which further emphasizes its light and fine character.

The name YOTTSU comes from the Japanese language and means the number four - it is one of the basic terms used in everyday, material contexts, such as for counting objects. In the case of this fixture, the meaning takes on symbolic depth. The starting point for the name was the four-leaf clover - a symbol of happiness, harmony and rarity. Its uniqueness and natural symmetry became the inspiration for a lamp that not only illuminates a space, but also organizes it visually. The four leaves of the clover can be read as metaphorical pillars of the design: light, form, function and emotion - the values that make up the essence of YOTTSU.

In this view, the lamp becomes the focal point of the space, which does not impose itself, but orders the surroundings with its presence. Its streamlined but distinctive form acts as a luminous compass - a quiet guide around which everyday life can unfold. It is a luminaire designed for balance, orientation and intuitive elegance, which fits in with conscious interior architecture.

Application and IP20 rating

YOTTSU A is IP20-rated, making it designed for dry interiors - it will be perfect for dining rooms, living rooms, coworking spaces of modern offices or in the kitchen over an island. It is a luminaire created for spaces where light plays a key role in building atmosphere and functionality.

The YOTTSU A pendant lamp blends perfectly with the YOTTSU W A wall lamp from the same series, creating a coherent, modern lighting set. Such a combination allows you to maintain visual continuity in the space, combining ceiling and wall lighting into one harmonious composition.

Handmade and unique character

Each copy of the YOTTSU lamp is assembled by hand to order in a Polish manufactory, which ensures precision workmanship and high quality. Thanks to the individual approach to production, each lamp is a unique object - created for people who value craftsmanship and durability over seasonal trends.

With its balanced form and meaningful depth, YOTTSU is not just a lamp - it's a point of balance in your interior. It combines precision craftsmanship with minimalist elegance, setting the stage for those looking for more than just light. We invite you to buy YOTTSU - let light become the center of your space and give your interiors a new luminous rhythm with UMMO.

Key features:

- Modern minimalist design and in the spirit of Italian design of the 1990s.
- Available color temperatures: 3000K or 4000K.
- Handmade to ensure the uniqueness of the product - each piece is created with attention to detail.
- Horizontal layout - ideal for installation over the kitchen island and representative places.
- Wide palette of trending colors.
- Noble finishing materials: metal.
- Built-in light source with proven leds holding the right parameters.
- Protection class: IP20 - for indoor use.
- Possibility to personalize the finish within the UMMO color collection.

Parameters of the 3000K LED strip:

- 2835 SMD diode type
- flux 2900lm/m
- power 24W/m
- voltage 24V
- IP20

4000K LED strip parameters:

- type of diodes 2835 SMD
- flux 3115lm/m
- power 24W/m
- voltage 24V
- IP20

Power supply parameters of LED strip:

- 24V output voltage
- power 20W

Technical information

Light source included	Yes
Type of light source	LED
Input voltage	220-240V
Max wattage	14,4W
IP degree	IP20
Cable/-s lenght	150cm
Cable lenght	150cm
Width	100cm
Height	8cm
Depth	25cm
Length of the ceiling slat	80cm x 5cm
Made of	metal / aluminum
Colour	white (Signal White RAL 9003)
Cable color	white
Braid type	polyester
Frame color	white
Warranty	5 years
Comments	custom-made product
Type / function	ceiling lamp, pedant lamp
