Description

Design description

Caponio ST is for those who expect more than function from light - they want mood, personality and aesthetic balance. This table model is a continuation of the well-known and acclaimed Caponio collection - while maintaining its key DNA: modernistic form inspired by Italian design and perfect detailing, where the lampshade is inspired by the shape of a hat. It combines modernity with classicism and exudes lightness.

Lamp components and functionality

The metal lampshade with a soft, rounded form comes in the colors: red-orange RAL 2002, black RAL 9005, white RAL 9003, olive RAL 6013, blue RAL 5014. It is set on a slender, minimalist metal base.

The lamp consists of two carefully selected components - a milky white glass shade and a metal lampshade with a rounded, subtly expanding shape, which is reminiscent of classic lamp forms of the mid-20th century. The two components work together aesthetically and functionally - the glass shade

softly diffuses the light, giving the space a warm, cozy character, while the metal lampshade provides a modern counterpoint to this gentleness, giving the whole a distinct form. The height of the metal lampshade relative to the shade can be adjusted, allowing you to subtly influence the appearance and character of the light distribution - more focused or more open, depending on your design needs. The dimensions of the lamp are 28 x 28 x 34.3 cm.

Caponio ST has **an interchangeable light source (E27 LED, up to 15W)**, which gives you full freedom to choose the color and power of the lighting - from a warm, relaxing glow to a cool and functional light. This allows you to fully adapt it to the climate of the interior and to your needs.

Application and IP20 protection class

This is a lamp that will find a perfect place on a bedside table, desk, dresser, console or coffee table. It can function as a mood light, auxiliary or accent light - always classy.

Caponio ST is designed for safe use in dry, domestic spaces. Its **IP20** protection rating means the lamp is suitable for interiors where there is no direct moisture or contact with water. It's ideal for rooms where the light is not only to be functional, but also to create a mood - without the need for additional protection from the elements. It is worth remembering that Caponio ST is not intended for use in bathrooms, kitchens (near the sink) or outdoors, where moisture levels could affect its performance.

The Caponio table lamp goes well with the pendant lamp and wall lamp from the same series, creating a cohesive, modern lighting set. This combination allows you to maintain visual continuity in the space, combining ceiling, table and wall lighting into one harmonious composition.

Handmade and unique character

Each lamp is assembled by hand to order, with attention to detail - a carefully crafted product that is made with the individual customer in mind, not the mass consumer.

Caponio ST is more than just lighting - it's a conscious choice. For those who appreciate detail, proportion and light that not only brightens a space, but also emphasizes its character. We cordially invite you to purchase it.

What sets it apart?

- References to modernism and Italian design in form and proportions.
- Noble materials: metal + milk glass.
- Auxiliary or mood light - ideal as a complement to the main lighting.
- Hand assembled to order - each piece is created with attention to detail.
- Maintains consistency with pendant lamps and wall lamps from the same collection.
- Adjustable hat lampshade, which allows you to customize the form of the lamp.

Technical information

Light source included	None
Screw type	E27 LED
