Description

Design description

The name FLUMINA is derived from Latin and means streams or rivers - and for good reason. This table lamp is designed so that light flows freely through the form, softly diffusing into the space like a reflection on a sheet of water. The design is based on the principles of the International Modernism trend with clear echoes of Bauhaus aesthetics - purity of lines, simplicity and balance of materials.

FLUMINA's minimalist form is based on the juxtaposition of two natural structures: warm wood and fluted glass. The vertical silhouette gives the whole a calm rhythm, which fits perfectly in open home spaces - in the bedroom, on the dresser in the living room, or in the work area.

Lamp components and functionality

At the center of the composition is a fluted glass shade, whose vertical grooves subtly diffuse light, creating a delicate play of shadow and glow on the surfaces. It is complemented by a natural wooden base, which not only stabilizes the structure, but also warms the perception of the lamp - both

visually and emotionally. The dimensions of the lamp are 20.5 x 9.3 x 19 cm.

FLUMINA is equipped with an interchangeable LED light source with an E14 thread (up to 9W), which allows for full personalization - you can choose the color and intensity of the light yourself, depending on your mood, the function of the room or the time of day. The polyester braided cable is terminated with a discreet switch, providing convenience and an aesthetic finish.

Application and IP20 protection class

FLUMINA is a lamp designed for dry indoor spaces, where its role as a subtle source of light can fully shine. Its IP20 protection class means that it will find its perfect place in such rooms as a bedroom, living room, study or reading corner - anywhere where there is no contact with water or excessive moisture.

It is worth remembering that the lamp is not suitable for use in bathrooms, kitchens near the sink area or outdoors - its place is dry interiors.

The Flumina table lamp goes well with the pendant lamp and wall lamp from the same series, creating a cohesive, modern lighting set. This combination allows you to maintain visual continuity in the space, combining ceiling, table and wall lighting into one harmonious composition.

Handmade and unique character

Each FLUMINA lamp is assembled by hand to order, ensuring exceptional workmanship, attention to detail and personal character. It is not a serial product, but a thoughtful piece of equipment, created with the individual user and his space in mind.

FLUMINA is a light that doesn't just shine - it flows.

Subtle, balanced, harmonious - for those who know that true beauty lies in simplicity. We cordially invite you to purchase it.

FLUMINA - key features:

- Inspired by Bauhaus aesthetics and fluidity of forms - "flumina" means river in Latin .
- Combination of natural wood and fluted glass.
- Interchangeable E14 LED light source (max 9W) - independent selection of color and wattage.
- Polyester braided textile cable with on/off switch.
- IP20 protection rating - for indoor use.
- Hand assembled to order - unique character, attention to finish.
- Ideal for bedroom, living room, office, relaxation areas.
