Price: **859,00 zł** gross

Manufacturer: **UMMO Lighting**

Product code: **FLWA12000**

EAN: **5906733727328**

Description

Design description

FLUMINA W, a wall sconce from the FLUMINA collection, draws its name from the Latin word "flumina," meaning streams - and that's exactly how it works: smoothly, calmly and precisely distributing light in space. Its form is a nod to the geometric modernism of the International Current and Bauhaus aesthetics, in which function goes hand in hand with form, and every detail has its justification.

The minimalist, vertical composition is based on the juxtaposition of fluted glass and natural wood, which together build rhythm and contrast: the transparent, delicately textured surface of the glass subtly filters light, while the warmth of the wood brings balance and calm to the interior.

Lamp components and functionality

The main component of the wall sconce is a glass shade with vertical fluting, which adds texture to the light and softens its propagation along the wall. It is complemented by a wooden element - not only functional, but also aesthetically pleasing, providing a counterpoint to the cool glass. The

dimensions of the kyquette are 11.3 x 20.5 x 19 cm.

The lamp is equipped with an interchangeable LED E14 light source (up to 9W), which allows the user to select the color and intensity of light according to the purpose of the space - from moody evening light in the bedroom to gentle illumination of the transition zone in the hallway or corridor.

Application and IP20 protection class

FLUMINA W is designed for use inside dry spaces such as bedrooms, living rooms, lobbies and offices. Its IP20 protection class means that it is not suitable for conditions of increased humidity, so it should not be installed in bathrooms or kitchens near water sources or in outdoor spaces. In residential and commercial spaces with standard and stable microclimates, it will be perfect as a source of auxiliary, atmosphere-building light.

The Flumina wall lamp blends well with a standing lamp and a pendant lamp from the same series, creating a cohesive, modern lighting set. Such a combination allows to maintain visual continuity in the space, combining ceiling, table and wall lighting into one harmonious composition.

Handmade and unique character

Each FLUMINA W is created through a process of hand-assembling a custom-made product. It is not a mass product from a production line - it is a piece of home furnishings that consciously combines aesthetics, quality and function. The artisanal nature of the workmanship means that each wall lamp has its own unique feature and soul.

FLUMINA W is a light that does not overwhelm but accompanies.

Discreet, elegant, timeless - created for interiors that value light as an architectural detail. We cordially invite you to purchase it.

FLUMINA W - key features:

- Geometric, minimalist design inspired by the Bauhaus.
- Harmonious combination of fluted glass and natural wood.
- Interchangeable E14 LED light source (max 9W) - choose the color and wattage as needed.
- Illuminates the space in a subtle diffused way creating a light drawing on the wall, thanks to the fluted glass - ideal as a mood light.
- Textile cable with polyester braid optional
- IP20 rating - for indoor, dry use only.
- Suitable for bedrooms, living rooms, hallways, relaxation areas.
- Hand assembled to order - guarantee of quality and uniqueness.

Technical information

Light source included	None
Screw type	E14 LED
Max wattage	1 x 9W
IP degree	IP20
Length	10.2cm
Width	19.8cm
Height	19.8cm
Length of the ceiling slot	10cm x 5cm
Made of	ash wood / fluted clear glass
Colour	walnut
Lampshade color	transparent
Warranty	24 months
Comments	custom-made product
Type / function	wall lamp, sconce
Power supply	~230V, 50/60 Hz
