Description

Design description

RIFLO W C is a wall lamp that combines the essence of modernist architecture with a modern approach to design. Its elongated, oval form recalls the plan of buildings from the Bauhaus era, where simplicity and functionality were key. However, the use of fluted glass gives the lamp a contemporary feel, introducing subtle refractions of light and shadow that add depth and dynamism.

RIFLO W C is a wall sconce that draws on the traditions of modern architecture, but its geometric, elongated shape brings to mind the clear lines of modernist urban design - those in which form was to be primarily useful. This version, however, adds an element of surprise: gently fluted glass adds depth to the structure, softening its technical character and introducing a chiaroscuro detail that subtly enlivens the surface.

The name RIFLO can be read as an echo of the word "rifle" - a reference to the rhythmic embossing that occurs on the surface of the glass, and at the same time to the fluidity of the composition. This model interprets classic Bauhaus values through the lens of contemporary needs - as functional as it is expressive.

The name "RIFLO" can be interpreted as a combination of the words "rifle" and "flow," reflecting both the structure of the shade and the fluidity of the lamp's form.

Lamp components and functionality

The body is made of powder-coated metal in RAL 6013 olive green, RAL 9003 white or RAL 9005 black, which emphasizes its minimalist but modern form. The front of the lamp is shielded by transparent, vertically fluted glass, which subtly diffuses the light, giving it a pleasant softness.

RIFLO W C is equipped with an integrated LED light source of 3W, available in two light color variants - 3000K (warm) or 4000K (neutral), and an additional adjustable reflector of 2.1W - discreet, but extremely practical. Thanks to it, the light can be directed precisely where it is most needed: on a book, a painting, a bedside table or a decorative detail. It is possible to control the light sources independently - the user can run only a spotlight, choose only ambient lighting, or combine both functions into a full, multi-layered light. Three separate light scenarios allow you to precisely adjust the mood of the interior to your current needs - from evening focus, to gentle illumination of the zone, to overall illumination with a clear accent. This configuration makes the lamp suitable both as a gentle background lighting and a functional spotlight accent. The dimensions of the lamp are: 4.3 x 15.6 x 43.5 cm. These proportions make the lamp look slim and elegant even in a limited space.

Application and IP20 protection class

Thanks to its IP20 rating, the RIFLO W C is ideal for dry areas such as living rooms, bedrooms and hallways. It can serve as accent or auxiliary lighting, adding elegance and modernity to the interior. The additional reflector makes it perfect as a bedside light.

Handcrafted and unique character

Each RIFLO W C lamp is hand-assembled to order, which guarantees its uniqueness and high quality workmanship. This is a product for those who appreciate individual approach to design and detail.

By combining classic forms with modern details, RIFLO W C is an excellent choice for those looking for unique lighting for their interior. We invite you to purchase and discover light in a whole new perspective, the UMMO perspective.

Key features:

- Modern design inspired by modernism.
- Choice among colors: olive RAL 6013, white RAL 9003 or black RAL 9005.
- Noble materials: metal / fluted clear glass.
- Contemporary character thanks to the fluted glass.
- Built-in light source with proven leds holding the right parameters.
- Additional LED spotlight 2.1W with adjustable light direction - increased functionality in the form of spot light.
- Protection class: IP20 - for indoor use.
- Hand assembled to order - each piece is created with attention to detail.

Technical information

Light source included	Yes
Type of light source	LED
Max wattage	3W
IP degree	IP20
Length	4.3cm
Width	15,6cm
Height	43.5cm
Length of the ceiling slat	25cm x 6.8cm
Made of	metal / translucent fluted glass
Colour	green (Reed Green RAL 6013)
Lampshade color	transparent
Warranty	5 years
Comments	custom-made product

Type / function

wall lamp, sconce

Power supply

~230V, 50/60 Hz

Other finishes
