## Description

### Design Description

RIFLO W D is a wall lamp that combines architectural precision and utilitarian comfort. RIFLO W D presents the luminaire in a horizontal arrangement, which brings a distinct rhythm and horizontal dynamics to the interior. The characteristic elongated shape refers to modernist facades and architectural details typical of 1930s Gdynia.

The front surface of the lamp is finished with transparent, vertically fluted glass, which gently diffuses the light while creating a subtle chiaroscuro effect. As a result, even when switched off, the luminaire remains a distinctive design element. The geometric discipline here has been balanced with texture and detail - creating a design that is raw in expression, but warm in feeling.

### Lamp components and functionality

The body is made of powder-coated metal in RAL 6013 olive green, RAL 9003 white or RAL 9005 black, which emphasizes its minimalist but modern

form. The front uses structured glass - transparent but fluted, which brings light into the interior with a subtly diffused character.

RIFLO W D is equipped with two movable LED spotlights, each with a power of 2.1 W, allowing the light to be directed independently in two directions. Next to them is an integrated 4.8 W light source, shielded by fluted glass. Both types of light are available in colors of 3000K (warm) or 4000K (neutral), which allows you to adjust the lighting effect to the individual needs of the space. It is possible to control the light sources independently - the user can run only the spotlight, choose only ambient lighting, or combine both functions into a full, multi-layered light. Three separate light scenarios allow you to precisely adjust the mood of the interior to suit your current needs - from evening focus, to gentle zone illumination, to overall illumination with a clear accent.

The lamp has a horizontal orientation and dimensions suited to this configuration: 14.3 x 48.8 x 15.6 cm - making it ideal over a bed, a painting or in areas that require directional lighting.

## Application and IP20 protection class

Due to its IP20 protection class, the RIFLO W D lamp is designed for dry rooms: bedrooms, living rooms, studies or corridors. It will prove perfect where flexible, adjustable light is needed - without compromising on aesthetics.

## Handmade and individual character

Like every UMMO lamp, the RIFLO W D model is also hand-assembled to order. This gives each piece a unique character, and its quality is the result of care and craftsmanship. This is an option for those looking for a well-designed light, realized outside the pattern of mass production.

RIFLO W D is a user-oriented light. Architectural form, refined detail and maximum functionality - all to fit your space. We invite you to purchase and explore the possibilities of this unique RIFLO luminaire.

### Key functional features

- Modern design inspired by modernism.
- Horizontal layout - ideal for mounting above the bed, in hallways, next to paintings.
- Choice among colors: olive RAL 6013, white RAL 9003 or black RAL 9005.
- Precious materials: metal / clear fluted glass.
- Built-in light source with proven leds holding the right parameters.
- Two independently adjustable LED spotlights (2 x 2,1W).
- Protection class: IP20 - for indoor use.
- Hand-assembled to order - each piece is created with attention to detail.
- Transparent glass with vertical fluting - for soft, atmospheric light.
- Customizable finish within the UMMO color collection.

## Technical information

Light source included	Yes
Type of light source	LED
Max wattage	4,8W
IP degree	IP20
Length	4.3cm
Width	48.8cm
Height	15.6cm
Length of the ceiling slat	39.8cm x 6.8cm
Made of	metal / translucent fluted glass
Colour	green (Reed Green RAL 6013)
Lampshade color	transparent
Warranty	5 years
Comments	custom-made product
Type / function	wall lamp, sconce
Power supply	~230V, 50/60 Hz
