Price: **959,00 zł** gross

Manufacturer: **UMMO Lighting**

Product code: **FLA122P0**

EAN: **5906733727281**

Description

Design description

The name FLUMINA is derived from Latin and means streams or rivers - and for good reason. This pendant lamp is designed so that light flows freely through the form, softly diffusing into the space like a reflection on a sheet of water.

The FLUMINA pendant lamp is a nod to the design discipline that was born in the Bauhaus school - a place where form always served function. Its design is a praise of clean lines, economy of means and nobility of materials. The simple silhouette of the lamp, free of unnecessary ornamentation, is based on symmetry and proportion, which derive from the canons of the current of international modernism.

Lamp components and functionality

FLUMINA was created from a combination of natural wood and fluted glass - this combination brings both visual lightness and textural differentiation. The rhythm of vertical grooves on the glass shade gently diffuses the light, providing a subtle penetrating and shadowing effect, while the warm tone

of the wood brings softness and balance to the interior. The fixture measures 20.5 x 9.3 x 19 cm.

Suspended from a polyester braided textile cable, the lamp presents itself as a refined, functional light object - whether in the dining room, over a kitchen island, or in a living room or commercial spaces like an office or restaurant.

FLUMINA has an interchangeable light source with an E14 thread (up to 9W LED), which allows you to individually select both the power and the color of light - depending on your design needs and the mood of the interior.

Application and IP20 protection class

FLUMINA was designed for safe use in dry, domestic spaces. Its IP20 protection class means that it will do well in interiors where it is not exposed to direct contact with water or excessive moisture. It's an ideal solution wherever the light is meant to build atmosphere - without needing additional protection from the elements. However, it is worth remembering that FLUMINA is not intended for bathrooms, kitchens near the sink area, or terraces or balconies.

The Flumina pendant lamp goes well with the standing lamp and wall lamp from the same series, creating a cohesive, modern lighting set. Such a combination allows to maintain visual continuity in the space, combining ceiling, table and wall lighting into one harmonious composition.

Handmade and unique character

Each lamp is hand-assembled to order, with attention to every detail and quality of finish. This is not a mass product - it is a light with character, created with a conscious recipient in mind.

FLUMINA is more than a lamp - it is a light designed with you in mind. For those who appreciate purity of form, value of materials and details that matter.

We cordially invite you to purchase it.

FLUMINA - key features:

- Design inspired by classic Bauhaus - pure form, proportion, functionality.
- Noble materials: natural wood + fluted glass.
- Soft, diffused light thanks to the structure of the lampshade.
- Interchangeable E14 LED light source (max 9W) - you can choose the color and wattage yourself.
- Braided cable made of durable polyester
- Lamp hand-assembled to order - unique character, careful finishing.
- Ideal for modern, japanese, loft and classic interiors.

Technical information

Light source included	None
Screw type	E14 LED
