Description

Design description

The SENKEI C lamp is a proposition where contemporary minimalism meets a futuristic aesthetic inspired by the modernist era. Its flat, stretched silhouette recalls the dynamic rooflines of mid-20th century modernist villas - such as those designed by Le Corbusier - where geometry was subordinated to light, function and harmony of space. The form of the lamp, seemingly simple, is a conscious nod to the architectural rigor and technological optimism of an era that valued structural clarity on the one hand, and dreamed of a future of interplanetary travel on the other.

The name "Senkei" derives from the Japanese language and means "lines" or "contours" - which perfectly captures the essence of this luminaire: a precisely guided form, devoid of unnecessary ornamentation, yet carrying a strong, expressive visual message.

Lamp components and functionality

The body of the lamp is made of metal in colors from the UMMO palette: white RAL 9003, black RAL 9005, red-orange RAL 2002, olive RAL 6013, which

gives it a modern and universal character. The lamp is equipped with an integrated 28.8W LED light source, available in two color temperatures: 3000K or 4000K. This allows you to customize the lighting according to your individual needs and preferences. The dimensions of the lamp are: 138.4 x 15.4 x 5 cm. It is suspended on thin steel cables, which further emphasizes its light and fine character. The total length of the suspension is 150 cm, which allows it to be used in various spaces.

Application and IP20 protection class

Thanks to its IP20 rating, the SENKEI C lamp is designed for use in dry spaces such as living rooms, dining rooms, stylish offices, hotels, restaurants or spaces above kitchen islands. Its modern design makes it a perfect match for interiors decorated in minimalist, Scandinavian or industrial styles.

Handmade and unique character

Each SENKEI C lamp is hand-assembled to order, which guarantees its uniqueness and high quality workmanship. It is an offer for those who appreciate an individual approach to design and precision craftsmanship.

Thanks to the combination of classic forms with modern details, SENKEI A is an excellent choice for those looking for unique lighting for their interior. We invite you to purchase and experience light in a completely new perspective, the perspective of the UMMO design world.

Key features

- Modern minimalist design inspired by modernism and futurism.
- Available color temperatures: 3000K or 4000K.
- Handcrafted to ensure the uniqueness of the product.
- Horizontal layout - ideal for installation over kitchen island and representative places.
- Wide range of trending colors.
