Description

Design description

The name Funsui comes from the Japanese language, where it means a fountain or stream of water - a symbol of movement, lightness and constant flow. It is these qualities that are found in this unique pendant lamp by UMMO. Its form is reminiscent of a sea buoy or an organic, blobby shape - rounded, irregular, but perfectly balanced.

Inspired by Funsui's Memphis style with its penchant for color, playfulness and bold forms, the design stops one step short of extravagance. It maintains modernist discipline, proportion and functionality - characteristic of UMMO's brand DNA.

Lamp components and functionality

The lamp is made of three diverse materials: frosted metal, milky glass and natural ash wood. This carefully considered combination of textures and tones makes FUNSUI an eye-catcher, without disturbing the coherence of the interior. The dimensions of the lamp are 8.4 x 8.4 x 35.3 cm.

The centerpiece of the lamp is a milky glass shade, which gently diffuses the light, providing a soft, pleasant glow. Inside is an integrated world source, available in two browns - 3000K or 4000K.

The whole is suspended from an aesthetically pleasing cable in navy blue polyester braid, 124.7 cm long, ending in a subtle ceiling bezel with a diameter of 10 cm. The total length of the lamp is 160 cm.

Application and IP20 protection class

FUNSUI was designed for use in dry interiors, where the light has not only a utilitarian function, but also an aesthetic one. The IP20 protection class means that the lamp is ideal for use in the living room, over the dining room table, in the kitchen (away from moisture), bedroom or in commercial spaces - such as showrooms, galleries or cafes.

The lamp should not be installed in bathrooms or in the immediate vicinity of humid areas, where increased moisture levels could affect its performance.

The Funsui pendant lamp goes well with the standing lamp and wall lamp from the same series, creating a cohesive, modern lighting set. This combination allows you to maintain visual continuity in the space, combining ceiling, table and wall lighting into one harmonious composition.

Handcrafted and unique character

Each piece of FUNSUI is assembled by hand to order, which guarantees not only high quality, but also a unique character. This is not a mass-produced lamp - it is a consciously designed object, created with attention to detail, proportion and consistency of form.

FUNSUI not only illuminates - it creates a flow of light and energy in the space. We cordially invite you to purchase it.

FUNSUI - key features:

- Oblique, blobby shape inspired by the nautical buoy and Memphis aesthetics.
- Design combining expression of form with modernist restraint.
- Combination of milky glass, ash wood and metal in trendy colors.
- Navy blue polyester braided cable, length 124.7 cm.
- Textile cable in polyester braid (you can choose from a wide range of colors).
- IP20 protection rating - designed for indoor use.
- Hand assembled to order - unique character.
