Description

Design description

The name Funsui is derived from the Japanese language, meaning fountain - symbolizing movement, lightness and constant flow. The FUNSUI W A wall lamp is the most restrained, but equally expressive member of the FUNSUI family. Designed for accent light, it is based on a vertical composition that emphasizes the vertical line of the wall and brings a palpable rhythm to the interior.

The lamp's form combines modern simplicity and light play with the association of a sea buoy. Although the design draws on the Memphis style and its love of form, color, it retains the modernist discipline characteristic of the UMMO brand. FUNSUI W A does not impose itself - it discreetly illuminates the space and defines its mood.

Lamp components and functionality

The wall lamp is made of three different materials: metal elements painted with fine-textured paint in RAL 5003 navy blue, RAL 9003 white and RAL 9005

black, milky glass that diffuses light in a subtle and pleasant way and natural ash wood. This carefully considered combination of textures and tones makes FUNSUI W A eye-catching, without disturbing the coherence of the interior. The whole is set on an aesthetically pleasing metal base, from which grows a slender stem that supports the lampshade. The lamp measures 17.7 x 8.4 x 50.6 cm.

Inside is an integrated light source, available in two browns - 3000K or 4000K.

Application and IP20 waterproof class

FUNSUI W A is designed for use in dry, domestic spaces. The IP20 protection class means that the lamp is suitable for interiors where there is no direct moisture or contact with water. It is ideal for use in the living room, bedroom or hallway, where the light is intended to create a cozy atmosphere. Avoid installation in bathrooms, kitchens (close to the sink) and outdoors.

The Funsui wall lamp goes well with a pendant lamp, chandelier or table lamp from the same series, creating a cohesive, modern lighting set. Such a combination allows you to maintain visual continuity in the space, combining ceiling, table and wall lighting into one harmonious composition.

Handmade and unique character

Each piece of the FUNSUI W A wall lamp is assembled by hand to order, with attention to the smallest details. This is a carefully crafted product, which is made with the individual customer in mind, not the mass consumer. Handmade guarantees the uniqueness and high quality of each piece.

FUNSUI W A is more than just a wall lamp - it is a designer light object that brings dynamics and elegance to the interior. We invite you to purchase and experience the unique design of the UMMO brand.

Key features:

- Design inspired by fountain form and Memphis style.
