## Description

### Design description

RIFLO W B is a wall lamp that combines the essence of modernist architecture with a modern approach to design. Its elongated, oval form recalls the plan of buildings from the Bauhaus era, where simplicity and functionality were key. However, the use of fluted glass gives the lamp a contemporary feel, introducing subtle refractions of light and shadow that add depth and dynamism.

The name "RIFLO" can be interpreted as a combination of the words "riffle" and "flow," reflecting both the structure of the shade and the fluidity of the lamp's form.

### Lamp components and functionality

The lamp is made of powder-coated metal in the colors olive RAL 6013, white RAL 9003 or black RAL 9005. The front of the lamp is precisely fluted glass - transparent but structural, giving the light directionality and softness at the same time.

RIFLO W B is equipped with an integrated 4.8W LED light source, available in two light color options - 3000K (warm) or 4000K (neutral). The dimensions of the lamp are: 4.3 x 15.6 x 48.8 cm and is the larger counterpart of its sister model Riflo W A. These proportions make the lamp look slim and elegant even in a limited space.

## Application and IP20 protection class

With an IP20 rating, the RIFLO W B is ideal for dry areas such as living rooms, bedrooms and hallways. It can serve as accent or auxiliary lighting, adding elegance and modernity to the interior.

## Handcrafted and unique character

Each RIFLO W B lamp is hand-assembled to order, which guarantees its uniqueness and high quality workmanship. This is a product for those who appreciate individual approach to design and detail.

By combining classic forms with modern details, RIFLO W B is an excellent choice for those looking for unique lighting for their interior. We invite you to purchase and discover light in a whole new perspective straight from UMMO.
