Description

Design Description

The YOTTSU W B wall lamp is a sophisticated interpretation of minimalist design, inspired by the aesthetics of Italian design of the 1990s. Its slender, vertical form brings a sense of harmony and balance to the interior. The characteristic clearance in the body of the lampshade gives the structure a visual lightness, breaking the uniformity of the form and adding to its dynamic character. The colors of the luminaire are the wide palette of the UMMO brand: white RAL 9003, black RAL 9005, melon RAL 1028, blue RAL 5014.

Attention is also attracted by the carefully designed strip masking the light source, which has not only an aesthetic function, organizing the line of the luminaire and giving it visual purity, but above all practical - it effectively prevents the effect of glare. In addition, subtle side notches in the design allow the light to gently flow onto the wall, creating a soft, ambient background. It's a thoughtful solution that underscores the attention to user comfort and light quality - one of the hallmarks of UMMO's designs.

Lamp components and functionality

The lamp is made of high-quality powder-coated steel, which ensures durability and an aesthetic finish. It is equipped with an integrated LED light source of 17W (CRI 90), available in two color temperatures - 3000K or 4000K - allowing to customize the interior atmosphere.

The lamp's slender form, measuring 10.5 x 25 x 103 cm, that it will be perfect as accent lighting in various spaces.

The name YOTTSU comes from the Japanese language and means the number four - one of the basic terms used in everyday, material contexts, such as for counting objects. In the case of this fixture, this meaning takes on symbolic depth. The starting point for the name was the four-leaf clover - a symbol of happiness, harmony and rarity. Its uniqueness and natural symmetry became the inspiration for a lamp that not only illuminates a space, but also organizes it visually. The four leaves of the clover can be read as the metaphorical pillars of the design: light, form, function and emotion - values that make up the essence of YOTTSU.

In this view, the lamp becomes the focal point of the space, which does not impose itself, but orders the surroundings with its presence. Its streamlined but distinctive form acts as a luminous compass - a quiet guide around which everyday life can unfold. It is a luminaire designed with balance, orientation and intuitive elegance in mind, which fits in with conscious interior architecture.

Application and IP20 rating

With an IP20 rating, YOTTSU W B is designed for use in dry areas such as living rooms, dining rooms, corridors, hotels, restaurants or office spaces. Its geometric form and subtle details make it a perfect match for interiors decorated in minimalist, Scandinavian or Japanese style.

The YOTTSU W B wall lamp blends well with the YOTTSU B pendant lamp from the same series, creating a coherent, modern lighting set. Such a combination allows you to maintain visual continuity in the space, combining ceiling and wall lighting into one harmonious composition.

Handmade and unique character

Each copy of the YOTTSU W B lamp is hand-assembled to order in a Polish manufactory, which guarantees uniqueness and high quality workmanship. This is an offer for those who appreciate individual approach to design and precision of craftsmanship.

YOTTSU W B is not just a lamp - it is a point of balance in your interior, combining precision workmanship with minimalist elegance. We invite you to discover the YOTTSU wall lamp - let light become the center of your space and give your interiors a new, conscious rhythm with UMMO.

Key features:

- Modern minimalist design and in the spirit of 1990s Italian design.
- Available color temperatures: 3000K or 4000K.
- Handmade to ensure the uniqueness of the product - each piece is created with attention to detail.
- Wide range of trending colors.
- Noble finishing materials: steel.
- Built-in light source with proven leds holding the right parameters.
- Protection class: IP20 - for indoor use.
- Possibility to personalize the finish within the UMMO color collection.

Parameters of the 3000K LED strip:

- 2835 SMD diode type
- flux 2900lm/m
- power 24W/m
- voltage 24V
- IP20

4000K LED strip parameters:

- type of diodes 2835 SMD
- flux 3115lm/m
- power 24W/m
- voltage 24V
- IP20

Power supply parameters of LED strip:

- 24V output voltage
- power 20W

Technical information

Light source included	None
Type of light source	LED
Max wattage	17W
IP degree	IP20
Width	25cm
Height	103cm
Depth	10.5cm
Length of the ceiling slat	83cm x 5cm
Made of	metal / aluminum
Colour	blue (Pigeon Blue RAL 5014)
Frame color	blue
Warranty	5 years
Comments	custom-made product
Type / function	wall lamp, sconce
