Description

Join the UMMO family! Lamps from the HANEA collection are perfect to start your adventure with lighting from this polish brand. Wall lamps with a simple milky lampshade on a metal base adjacent to the wall. Hanea in Swedish means man, but contrary to the name, the lamp is very versatile, so the model also works in typically "feminine" arrangements. The luminaires are powder coated with black or white structural paint, depending on the version. Let yourself be seduced by the HANEA collection with a delicate line and subtle light. You will not regret :)
